- Spectacular appearance
- Luminous surfaces
- Easy to work with

**HFX STAINLESS
FOR ROOF +
FACADE**

Roofinox Dura 1.4301/1.4404

The electro-coloured HFX Stainless

- _____ Coloured through an electro-colouring process using a transparent chrome oxide layer.
- _____ The chrome oxide layer is part of the HFX Stainless and elastic.
- _____ No paints or pigments are applied to the surface.
- _____ The unrivalled structure of brush-rolled HFX Stainless gives it a special aesthetic.
- _____ Unusual colour effects that change with lighting and viewing angle.
- _____ No colour changes due to UV-light.
- _____ Easy to work and seam.

Roofinox DURA is the metallic shimmering Stainless for extraordinary and spectacular architecture. It can be used in a wide range of areas which is ensured by our two generations warranty.

Advantages of Roofinox HFX Stainless

- _____ **Safety through longevity**
60-year warranty*
Low expansion
- _____ **Strength through stability**
Maximum weather protection (hail, storm, wind)
Long-term water tightness (solder, seam)
- _____ **Beauty through surface designs**
More than 10 unique surfaces
100% UV-stable
- _____ **Functionality and perfect workability**
> 20% softer, therefore workable by hand
Complete system for roof and facade
- _____ **100 % recyclable and 85 % recycled**
Made of stainless steel
